

Brian Lamb + other
Interviewers on C-Span,

We have been watching C-Span for the last six months and enjoy it most of the time. However we've noticed that you have on many more Liberals than Conservatives even though you say you try to maintain balance. I especially notice this when you have a Conservative and liberal on at the same time. When a call comes in the Camera goes to the liberal more than Conservative. Also when a Conservative call comes in sometimes they are cut short even when they are making very good points. You say you are short of time and get a liberal calls in and they can talk as much as five to seven minutes especially when they are praising our cooked President. I time these calls and my watch does not lie.

Please, Please, the news media is so liberal that we are hungry for the opinions of the other people so we can be informed of both sides. Don't stoop to the public media. As you know Germany was clapped by Hitler and Russia by Stalin. We don't want it to happen here. We do not want a socialist government for it ruins the economy.
