Contrary to some people's opinion, I am delighted with your background music at all times. You play some of my favorite pieces. Whenever possible I stay tuned to the times the House tallies its votes just so I can enjoy the music. I commend you for your excellent choice of concertos and very often wish you could play them all the way through. So

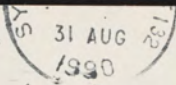

PLEASE DON'T STOP THE MUSIC!!!

In addition, I also very much enjoy some of your very interesting talk programs.

With many thanks,

Manlius NY 13104
