RE: United States v. Thomas

Dear Friends,

My caption is **precisely correct!** Senator Biden emphasized and reemphasized THIS WAS NOT A TRIAL. Senator Heflin was redundant in his commentaries, WE'RE ONLY TRYING TO DETERMINE THE FACTS. Yet both graved in concrete, should Judge Thomas be found Not Guilty, he stands CONDEMNED as though he had been **TRIED!**

In my Career in Casualty Claims I was a deponent on several occasions, and in The Witness Box in a few trials. I find The Professors' testimony incredible. Sen Heflin gave the impression he did not, yet I believe he was a Trial Attorney at one time. In my Career I have had to study Interrogatory Answers and Depositions. None I can recall, even my own, reflected Clear Answers of Total Memory Recollection of a year or more prior to the testimony.

The Accuser must have kept a Diary to have this Total Recall she reflected in her recounting of matters occurring ten years ago. Phenominal is appropriate. Astounding, certainly. BELIEVABLE? Not to me. Presumably to The Select Panel! My opinion based entirely on Sen Hatch's efforts to rehabilitate The Accused during the evening proceedings 101191 as I watched. Sen Heflin's grimace, during that portion, added fuel to my feeling he saw himself as EXECUTIONER.

I side with Judge Thomas. Indeed we are witnessing Electronic Lynching even **IF** The Accused is approved for The Supreme Court.

WE, us avid(rabid?)observers of **C-SPAN** and **CNN** must accept One, Salient Fact. Every Man accused of Sexual Harassment in a Business Environment will carry the indictment to his grave, even if it is confined to the company where he used to work. Once it reaches A Public Forum, whether Court, Nightly News, or Talk Show every radical individual or organization will castigate him.

I do not fault **C-SPAN** for carrying The Hearings. I would hope, indeed I prayed last night, thinking people would see this travesty for what it is! It came across, to me, as A WITCH HUNT, **AND** one more effort by The Senators to make Vote Points with their constituents. MR. Kerry did as much on the floor(I believe 100991), only because he is one more Announced Candidate for The Presidency. Until that diatribe I had

TWO

applauded his efforts. He came across as another opportunist, grabbing Prime Time **freebies**, to reach We The People who might not know who he is.

Judge Thomas, and his attractive Lady, may never recover from this vilification they have endured. Never will we know The Scoundrel who leaked the FBI Report. Sen Heflin, who sits on The Disciplinary Committee, well knows **LEAKERS** remain as anonymous specters. I chose SCOUNDREL with reason. It is archaic. By Definition: An unprincipled, dishonorable(man)villain. Synonyms: Cad, Bounder, Knave. (Source: Random House Collegiate. Revised Edition 1980) My Electronic Thesaurus does not reflect the archaic synonyms. Among other offerings: Malefactor; Evildoer; Criminal.

Deeply I regret nominations to The Supreme Court must rest with The President. It should be recalled Judge Suter refused to advise what his opinion or position on ABORTION might be. His Panel Accepted it. This PANEL **raged at** Judge Thomas. (Because he was BLACK?)

I am White, Middle Class, Retired, Catholic Convert. I would have refused to submit to such **TREACHERY**, were I in his position. The offal heaped upon him is without precedent. Every American of whatever persuasion has suffered. Some of us may remember the next time we vote!

I hope so!

Sincerely,
