Thank you for C Span your program has made a lot of people wake up about our government with the help of Ross Perot, David Bonior and Mr. Inchausti. ~~These~~ these people have done more to help fix things in our government than anyone else. If we could get the others to tell the truth it would be great. The Government tells us the economy is picking up but truth is the growth is because of the disasters of Andrew, the floods up north and Roads and fines in Cal (Keep up the good work)
