Gentlemen:

As a concerned citizen and a patriot, I would like to know why you have blacked-out coverage of Col. "Bo" Gritz? Why has truth been defamed and only more lies spread by you the media as you help push our nation further down the drain? Where does your responsibility lie to us the people? When will even one of you dare to stand up against your puppet masters?

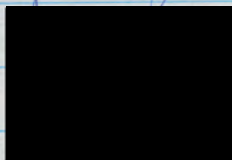

It seems to me, that a man who has already made it onto the ballot in 24 states, totally through a tremendous grass roots movement, has earned his right to be heard. He is the last and only chance our nation has. I strongly suggest his being heard on your program. By the same token,

let's get this Randy Weaver frame-up job
in Naples, Idaho out into the open.

I think it's high time you did
some honest reporting instead of more cover-ups,
lies and non-~~news~~ that is a down-right
insult to one's intelligence.

What say ye?

Sincerely,
