Dear Mr. Lamb:

I have been a regular viewer of C-SPAN for some time and have thoroughly enjoyed the program as a listener, I have called from time to time to discuss issues that I feel are of an important nature.

I haven't participated in the program since the middle of last year because [REDACTED]

During my recovery I have tried to call but have been unable to receive an open line, yesterday I tried again and something very strange happened, the same has happened today.

When I was finally able to receive a wring through and the phone rang four times an operator cuts in and informs me that the party I am calling has not answered the phone, needless to say I do not have to be told that someone is not answering the phone.

I immediatly repeat the process of calling and then the line is busy.

I am going to say here what I would have said had I been able reach your newspaper guests today.

I get sick to my stomach when I hear my fellow Citizens belly ache about the media in general, I am a Constitutionalist, I am very happy the the Founders of this Nation were intelligent enough to forsee a time when the thieves and their friends might or would try to stifle the free Press and free speech.

I would be willing to fight to the death to support the medias Rights to refuse to disclose their sources of information, I fully support the 7Articles and the 26 Amendments of the U.S. Constitution.

I spent my 67th. birthday yesterday gathering additional evidence I will need in support of a Court Suit in

Pennsylvania charging the Legislature of deliberatly violating our Constitution, and our Rights and guarantees under the Federal Constitution.

I fully expect to have this matter on the Court calendar by my next birthday or sooner if possible.

Re-iterating what I said to you and some guest,s you had on the Program in 1988, We need a National Political physic from top to bottom of this Nation to clear out the Political corruption.

If I could be granted one wish by the Lord I would ask that I would become a millionaire, I would have the greatest Holiday ever dreamed of, I would have people in this Nation in Court so often we would need to build a special Island for all of the crooked bunch we have been electing for many years.

[REDACTED] is against the Real Estate taxes as imposed, collected and spent,they have been in violation of Article 8, Section 2 of the Pa. Constitution which states taxes shall be uniform, I have also engaged the equal protection clause embodied in the fourteenth amendment of the Federal Const.

Here is a real laugh for you and my fellow Citizens, the Legislators of Penna. have unwittingly provided me with indisputable written evidence to support this case.

[REDACTED] I get thoroughly sick and disgusted to listen to our Political thieves cover each others backside in the disguise of ethics.

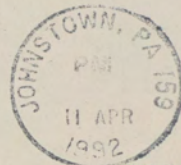

Sincerely, [REDACTED]
