Madam? and/or Sir:

I deplore the early start of "Road to the White House." How, how can a nation improve the methods of any election in the U.S. with your relenting? No country should have more than six weeks of campaigning for any election with the U.S.' modern-instant means of communication. '!!!!'

The millions spent on campaigns helps so few people; This nation is in a terrible condition economically with its debt for future generations. I regret your decision and hope you'll change it for the good of this nation. Many politicians are adding further ruin to the nation with lies, etc.

(over)

Even the Economist magazine praises his of
at least one of the politicians you're giving time,
too. I've been an ardent supporter of C. Span -
Maybe not again.

Sincerely,

[Redacted]

P.S. In 10 years, I've been able to speak to your visitors
one time. Does that mean that's due to my having
a rotary telephone - dialing the old way. I can't
afford a new one !!
