Mr. Brian Lamb
C-SPAN

Dear Mr. Lamb,

Congratulations to you and C-SPAN on the excellent public affairs programming service which you provide to the American people.

It goes without saying that I am very pleased Worldnet Television has chosen to make many of your programs available via satellite in Europe and hope that USIA will continue to increase the number of C-SPAN hours on EUTELSAT. I understand that a number of cable companies are also carrying the C-SPAN service here.

Thanks to C-SPAN, I now feel a part of the US election process for the first time since I moved to Switzerland 23 years ago. No doubt, thousands of non-Americans are also gaining their first real feeling for the democratic process in the US.

The Friday Journalists' Roundtable is outstanding - the best summary of the week's events I've seen, prepared with intelligence and sensitivity. The viewer calls are interesting and enlightening. Road to the White House provides a real feeling for the candidates and their individual styles.

I am pleased to see that the Sat/Sunday program from around 5 am to 11 am is now being covered which leads me to ask if you could not begin the election program one or two hours earlier, so that we do not miss as much in Europe.

Many thanks to you and your team. Keep up the good work. You are true professionals.

Yours sincerely,
[REDACTED]
