Dear C. Spar: It's hard to find words descriptive enough for yesterday's 1<sup>st</sup> Day program... I was 17. 18. 19. 20 during WW II so just about every boy (and they were boys) was in either the ETO or PTO... a boy to whom I was engaged flew B-17s from an English drone to occupied France, finally dying when a bomb hit his open bomb bay... many good friends never returned from Europe... I wrote yesterday... thank you... it was a beautifully packaged gift...
