Dear Mr. Lamb:

I would like very much to bring to your attention the following:

There is a woman who calls from -- Kansas City, Mo.
& St. Louis, Mo.

I watch C-Span religiously and finally decided to keep track of
how many times she calls in taking away from a first time caller.

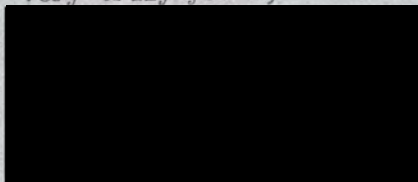

Month of March ... (4) times

Month of April so far ... (2) times

She is the epitome of selfishness and it is sad that in this age
of technology she could not be traced down and censured. I cannot
for the life of me figure out how she manages to get through so
often.

I have to share C-Span with Sports and although I am seventy
years old I truly hope to live to see the day that my cable system
will carry C-Span alone. It in my estimation is the best of all
the channels. Keep up the wonderful work. One day you even gave
two (2) call-in numbers which I applauded.

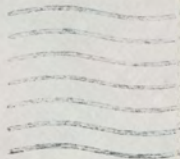

Very truly yours,
