

C-SPAN

Washington DC

Dear C-SPAN,

I really don't know how you get away with it. Only because the real ownership of American TV is such a business monopoly I suppose.

Instead of warning us against the sickness and anti-democratic ravages with which such corrupt grasping control of our television institutions has infected the American body politic as if it were a plague, these media mergers and communications cartels are forever working for the clandestine power that the monopolizers of wealth and privilege desperately need to conceal their true intentions.

On occasion when you purport to defend yourselves you lapse into the defense that all your super secret controllers are private and the shellgame "foundations" who are behind you are designated non-profit. Well of course the filthy rich who have been corrupting and buying up the congress since before the civil war do NOT want common people to know what they are doing and require shields, funnels and intermediaries to disguise what they are doing and what they intend to do; but that should be no secret to any of us.

Anyone who has studied Upton Sinclair's book about the way, the fantastically complex way Standard oil devised its web of political and economic corruption and deception - and a book called CHAPTERS OF ERIE, about how rotten, corrupt and wasteful to American taxpayers the U.S. capitalist internecine railroad wars were, can have some idea of the lengths powerful Americans will go to - to perpetuate their control over our country, our lives and all national assets. Of course now they want the whole world!

These are the people behind the trusts, symposia and "non-profit" foundations which keep C-SPAN and the mainstream corporate media filled to overflowing with ideological talking heads, the soldiers of reaction in the electronic age.

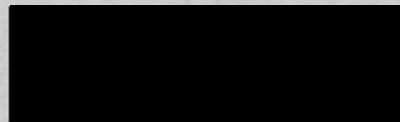

A perfect example was the ugly unpalatable Washington Times hack on your show this week who got his training and sponsorship and backing and career from the Olin foundation and their hard line fascist media propaganda prevarication squad, the notorious Heritage "foundation" ! This cute fellow naturally works for the far far right fascist-subsidized grist mill (c-span's favorite) of the fascist agenda, the slander organ of America's secret military colonial team! The CIA Washington Times.

The filthy rich Olin estate (along with Richard Scaife Mellon) inheritors have been funding American fascism for generations! And this is the type of power that C-SPAN AND MOST OF the corporate monopolized TV media speaks for.

This has become the big lie reality, that big media lie of modern TV handlers. One thing they all have in common is the new CIA nazi tactics of brazen brutal direct action - and then the horrendous plausible deniability - that claims your station and your TV guerrilla warfare skills give us a complete and BALANCED view !

If that wasn't such a direct and deliberate vicious lie it would be laughable.

Yours truly,

In fact it has become only too obvious over the past decade that C-SPAN was basically created, NOT as a voice of clarity or open debate (one has only to review its horrible partisan attempts to destabilize, muddy up, infiltrate and overturn the democratic majority in congress) but as a free and easy 24 hour propaganda platform for these same video propaganda mills created by the real owners of american wealth to further their views and lies and slanders against any and all democratic tendencies, to facilitate speeches, propaganda and seminars which would NEVER otherwise have seen the light of video tube since they were devised solely as TV propaganda to be aired over C-SPAN!

The democratic tendencies I refer to are the political and economic justice, that SOCIAL justice of real freedom and equality which we can only have through peace - but the corporate fascists and professional world bomber militarists only want endless wars and clandestine colonialism and in order to perpetuate the cold war fascist decades they need desperately to extend the secret UNACCOUNTABLE cold war techno-hardware ripoffs and quack boondoggles by continuing some kind of drug wars or vague terrorist wars and foreign threats in the same old subversive "investigatory" manner of slur and slander and bloody shirt allusions to commie-soft traitorism. The americans who have fallen for this reactionary agenda have become dedicated thoughtless kneejerk chauvinist fascists who continue to search the world for subversive threats. Our fascist friends, in order to remain in clandestine gestapo power must continue the momentum and Armageddon scenario of the CLASSIFIED UNACCOUNTABLE thief's EYES ONLY fascist tax transfer which has fueled their drive to the RIGHT in destroying what was left of american democracy over the past four decades.

Of course my views are exactly those which C-SPAN is in business to silence and bury. It's easy enough to do when the corporate fascists who control most of our institutions have a lock on TV. Any opposition simply becomes disappeared and is relegated to the modern american death, the accepted social death of NOT being allowed a voice on TV

This is why you deliberately pull the plug, cut people off (Ketchum is getting to be an ACE at this) and play the prime time game of putting those clips and views you abhor in the TV dungeon, those hours between three and six A.M. in the morning where they will be safe away from the majority of the real confused american workers' eyes and thoughts. But the worst gestapo tactic of your counterfeit constitutional babblers is the outright blacking out, editing, censoring and splicing of video tape to make an opponent's view not contradict the C-SPAN political agenda!

Like Ben Bagdikian's speech which was crudely spliced and edited and censored right in the middle. Of course this is always done when the subject is getting at the heart of particularly controversial issues and the point he is making could be especially devastating to the ideological owners and political paymasters of the C-SPAN gang. And this is why it is always so easy to detect !

At least there is some satisfaction in knowing how U.S. fascism hates and fears the truth so much that they will so crudely and obviously simply slash it out of media existence, that good old fascist CIA shredder button!

~~This has become the tr~~
