I WATCH C SPAN BECAUSE -

It is enhancing, enlightening and entertaining. It is factual and history in the making. It brings into my home the chance to see and even participate in events that vitally affect my life.

As a retired senior citizen it gives me a chance to be in the world that is of interest to me and through which I can still feel a part both for my self satisfaction and being in a position to converse with others. The call in programs gives the opportunity to feel the pulse of others on the various issues from all parts of the country.

C-Span balances my choice of viewing of sports, wildlife, hunting, fishing etc., which I enjoy, with the fine programs on real life. These problems can not be replaced by the fictional life of the soap operas and similar programs. C-Span gives balance to all various programs on modern television. It is educational, morally and ethnically clean and acceptable to anyone.

Continue your fine work and many years of success. From a senior I say to C-Span I say Amen.

Sincerely,
