Dear C-Spann:

I do listen to your channel, especially when the House is in session or the proceedings of some committee is being aired. While at one time the Senate operations were being aired, I listened to it - I liked it much better. For a while, the Senate appeared to be a bit more civilized and more realistic in their debates than is the house - until this last Congress. Now it has degenerated as an equal or maybe just some below the house.

Our country is in one hell of a mess! While I have voted as a Democrat and as a Republican, I must agree with George Wallace when he noted there was not a dimes difference in the parties.

As Congress accepted the payraise given to them and others in a sneaking, round about way - I could not "buy a used car from any one of them."

On November 6, 1990, the majority of those enough interested in their country to cast a vote chose George Bush as their President to head the executive branch of our government - there are 535 in the Congress, many in the Judicial branch and some others who all want to run that office to their way of thinking. Then, there is the News Media - all of them - who believe they qualify as the "Wise men" from the Supreme power. Many should not even be classes as "news media people". Many can easily be classed as "scandal mongers" - some as just plain character assassins. Many are just simply articulate entities that make a living talking, talking, yapping and yapping about anything - usually taking the negative - and running all the way to the bank with their ill gained income. Some of these "talkers" on C. Span can put out volume of words that have no meaning to the listeners. These C-Spann callers -- some claim to try for two years to get on the program - I suspect so, for I find it impossible to "get an answer" - and it is quite evident from the circumstantial talks and questions they ask - they have been pre arranged. And, even this fellow Lamb - if a caller gets on the line that he does not agree with - he will darn quick find an excuse to cut the conversation off the air.

Visit the areas where these Representatives come from! Are they the best the area has to offer? Not by a long shot. They are there because the best refuse to expose themselves to the scandal monger media and which they cannot defend themselves by libel suits for the simple reason -- lie or not a lie - he cannot clear his name and receive monetary damages unless he can prove the lie was intentional -- now just how can you prove that!

Our Supreme Court, supposedly a complete separate branch of our government is anythin but -- Some are on the court because for gender reasons, some are on the court because they must be jewish - or they must be black - or because of some other out landish political reason so that the party in power can sway the judgments of the decisions.

I am simply disgusted with all this up-roar regarding the Persian Gulf area. This committee of the armed services - are simply a bunch of know-it-all getting on the air making all kinds of speeches to get out a question - that is our trouble - we elect articulates but never a realist. I have happened to know people almost without any sensible mind at all can make all kinds of arguments about most anything or nothing at all. These folks on that committee are a disgrace to a respectable government. This bunch of Senators who flew over there and back in less than a week - they way they talk about the people they met, the views they expressed and their ability to read the thoughts of those people speaking nothing but arabic - but they come back overflowing with knowlege. Tommy Rot! Thye just had a nice air trip -- saw lots of unusual country - desserts, oasis camels and olives - but actually you could put all the real useful knowlege the whole bunch acquired in a thinble. This fellow Mitchell - wouldn't you like to buy him for what he actually knows and sell him for what he thinks he knows! Our National debt would be erased!

The USA is a country close to 15 times the population of Iraq. It is talked of as the most progressive of all countries. It has all sorts of manufacturing, we have been told that we have the best navy, the best navy, the best army and all that stuff -- in all the world. We have been supposed to make ourselves strong enough to best any power in the world -- Now it is reported, even after more than five months - our air force, our navy, nor our army is ready to take on Iraq!! If this is true, those who have been misleading the public, those who have been receiving our billions in defense funds, certainly they have been lying, misappopiating, and falsying the records about everything and should be lined up against the wall and disposed of because of treason. With all the advantages the USA has been claimed to have, if they really fought an honest war, they should be able to wipe out Iraq in any ten days and have time left over to clean up the damages.

We elected George Bush to handle our armed forces -- let him do it - if he won't - it is still time to change - but for Gods sake all these self styled know it all congressnebs and senators should stay at home. I think the country and George would do better without them.

It seems all these congressmen, all these past employees of past administration talk about freedom, but it appears that each and everyone of them think they each know more about ~~EVERYTHING~~ than all of our elected officials combined.

The "people shoice" can sometime be mystic! Who would believe that any community in these United States would elect a homo-sexual to represent them.

I am near 93 - no heirs - consequently, the fate of USA, has nothing realistic for me -- but I would like to see the future citizens of this nation enjoy all the good things I have during my near 93 years. It cannot be - with our hugh debt - and still adding to it in hugh amounts each year - and proposals in the works to continue special projects costing money - Our Country - as I have known it - will not be around by 2010.

PS. This program put on by
