

P.S., there is a future Conference being done on Global Warming, El Mines Weather affects + health, would you consider covering it on C-Span. I would like to know or have an answer from your Administrative Dept. on this. I watch C-Span as I eat, iron, Corp, some meals, wash + dry,

Lawrence, this "thank you" note. ^(Chelated) ^{+ write out bills, when I can work in my den/bitchen} Main reasons for the good, good coverage you all did and the long time ^{from?} allowed on C-Span for the Promise Keepers Rally and pre-rally programs you all had. I was keeping my "almost 2 yrs. old" grandson that sat, I rocked him to sleep with the music from the Promise Keepers rally; then I turned it down some + watched the rest of it while he slept for a long way. He watched some of it, as he played in the Den and got the message of Dad + their "boys" were there together and that it was like some things at Church. Thanks again. Mrs. Wynona V. Braldestad, Retired.

8" Dear C-Span: Administration on Program Selections ^{+ m. 10-24-97 (over)}

③ These "hard workers" who carry out the filming and all the other "big-work" of the programs presented to us — the people of this big, vast Nation. Thanks! Let me take this moment, while a ^{most} Interior Spending — on agreeing to the resolution part, is being conducted. I am "in" + fairly inactive in my usual responsibilities today due to a case of ^{1st + 2nd} ^{acute} ^{hoarseness} ^{or D1} ^{order on medication} "voice rest," + to stay out of the rainy + ^{per} damp, "changing temperatures abruptly" type weather, as of Tuesday, 10-21-97. Could this sudden weather change, ^{since} this summer to late spring be the effect of El Mines (eg.?) and Global Warming? Each time the sudden weather and/or storms ^{come} ^{weather} included, I get the Problem. For a few seasons I've had this in Winter but — not at this time of year. 11th. ^{new and} ^{ant} in friends, having the same problem, I'm hearing all know of, doing a study is research on involved ^{weather} ^{equated} situation. I've lived until this year + still don't.

With Thanks

p. 3
 I even learned how to tape in my VCR when you
 all did the Linsley/Douglas debates in Illinois. I
 was still working then, but felt the time I used for
 this was well worth it. Also the coverage
 of D-Day 50 yrs. I believe  (maybe that was on Public
 Broadcasting). Your a.m. programs, I view periodically.
 This is because we have a good Morning local news
 show from 6 to 8 a.m. daily. I also work in my yard some
 in the early a.m. before it gets too hot.
 I have a 1995 U.S. Cong. Directory + a C-Span New Member
 104th Congress Directory. You would not believe all the
 notes I have made by each member's picture + extra slips
 of notes tucked in on things. I watched on C-Span.
 I plan to get another directory before long.
 I may get home enough to
 show it to Rep John C. Coakley, M.D. also. He is New.
