Dear Mr. Wallace:

I remember when the rights of Iranian women would stand in comparison with that of their Western counterparts. Now with more conviction than the mullahs you compare them to the Saudi women. What next women under the Taliban?

Subject: Recent Interview - RAFSAN JANI

Dear Mr. Wallace:

Thank you for showing the support and encouragement toward a government which hates and kill Americans. God help you and this country to undo the evil that you helped to nourish and strengthen. You will go down in history as the most despised reporter. You are worst than the killers whom now you call fine and sincere. I now know who the reporter in Oliver Stone's "Natural Born Killer" was molded on. You deserve the same as that scum.
