SON —

AT Digital

idea —

The most important thing to
me (A cable subscriber) is quality
programming —

If I lose C-span 1 or II I feel **R**
o-must carry

Wed - July 8

Dear Brian —

I'm simply giving you my "gut"
reaction to the Senate Commerce
Committee hearing Wed. July 8 —

Brian — you were great! you
cleared up the cobwebs that I had
about this Digital situation —

It is obvious to me that Digital
"must carry" is a dumb idea —

The most important thing to
me (a cable subscriber) is quality
programming —

If I lose C-span 1 or 11 I feel P
o-must carry

I will lose the most important part of my television viewing —

To me, C-SPAN is like a wonderful vitamin — It's nice to have cake, cookies, French Fries, etc — but without your Vitamin you just can't be a fully healthy person — (I'm on "Weight Watchers" right now, so everything I do is food-related, HA HA!)

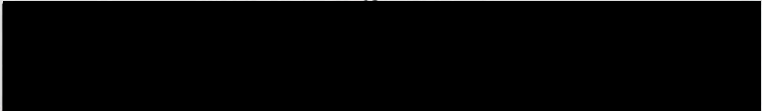

Brian — I will probably never buy a Digital TV — There are other things I want to do with

my money (travel, etc) and I
resent the High Definition TV
industry Attempting to "Bully"
their way into our homes through
"must carry." (obvious Greed)

I hope Congress Acts Wisely in
this situation — for the good
of the people of our country.

Please feel free to pass this
letter on to Congress if you
wish —

Sincerely,

(Mississippi Viewer)
