

Dear Brian -

4/26/93

C-span is an amazing "miracle" to us. So all uninterrupted coverage of "our" government is a really exceptional experience.

So - its your fault (not really) that we who listen to Ross Perot come to depend on C-span to bring his testimonies to us. That disappointment gathered here when your anticipated coverage of the Banking Committee NAFTA hearings failed to materialize on Thursday's presentation by Perot.

We did have a day of Gay Rights coverage by you plus Friday & all day Sunday. Gays must have their rights - but equal time for this country's financial future is also important.

Please keep your balance
