

3/14/94

C. Spow

Since I am not a wealthy person - I can't afford a fax machine - I have to write my remarks on paper too yow.

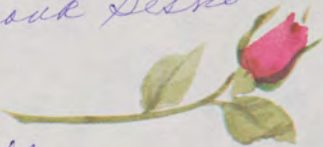

I get taken back by all the liberal press trying to protect the White House. Today was a good situation (Monday 3/14/94)

It makes you wonder just how many reporters are supported by the White House too squelch the White Water affair - I applauded Monna Chert today.

I pray Brian Lamb and C. Spow continue to follow the affair and keep reporting what's going on.

I am suprised no callers remarked on Late Edition with Frank Sesno.

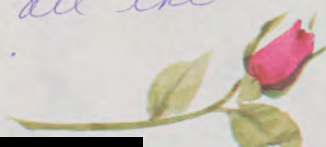

No one commented on Mrs Clinton losing his temper during a White House

Working with the White
House Press. Maybe you
received a Fax on it but
failed to read it too the
public. If you did get some
remarks on your Fax and
you squeaked it - you are
wrong Brian. Keep it fair and
honest. A lot of the American
Public have high regards for your
not taking sides.

What ever it takes to bring
out the White Water Case too the
public should be done - Hearing's
Special Council - Investigators of
the New's, Programs like your's
or what ever - it needs to be
done - no slacking off - no reports
squeaked - no hiding the facts.
Lay it out on the table. I'll
watch as long as you stay strait.
That goes for you and all the
people working in C-Span.
Thank you.
