

I watch C Span because I am proud to be able to watch how our government works. I enjoy being able to follow the workings of our representatives from budget hearings to the debate of points for and against an important bill in front of congress. As it is not possible for all 200 plus million citizens of our free country to be there in person, C Span makes it possible to watch if we want to. C Span lets us see how "the System Works"

Very truly yours,

Allison Park, PA 15101

I am a 28 year old office manager. I am married and if I win, will bring my wife. I am a volunteer fireman and play softball and volleyball. I graduated from Duquesne University here in Pittsburgh with a degree in accounting. I would really enjoy seeing so beautiful a city as Washington D.C., the Capitol, C Span, and all in person.
