

C. Spear

Washington, D.C.

You have really gone to fat.
These past two weeks have
really stunk.

All these gossie gossie folks
who call in about how great you
are. When anyone complains you
all just put them off.

Today you said you didn't
know about August program. No doubt
it will be a month of olelleries
from Lance. We, here, have made
all our appointments for August.

Once we couldn't wait
to turn on C. Spear at 7 AM. Now, it
is really a waste of time.

That person who called in
about that same woman calling
constantly. He is right. There are a
couple women and a man we
hear all the time.

O.W.J

You folks all keep saying how
 fair you all think that are
 so meaningful you try - pass
 and something we would all
 like to see and hear you just
 drop and bring on things to
 promote the last 2 months
 New York tourism about Aleke
 These people don't seem to care.
 Museums, Historians, Professors,
 and Sullivan folks might
 appreciate what Ole Aleke said
 about us over hundred years
 ago.

We pulled 25 folks of all
 ages. 1 (me) of those ever heard
 of him and then didn't know
 what he was or did.

Many from graduating
 College never heard of him.

Guess C. Spow in hunting
 news and programs, cause they
 sh sure have gone to pot.

You folks keep saying, use the Inter. net, etc. There are thousands of us who do not have that pleasure. We are not all affluent to have it and are the older generation. You just keep pushing it as does C N N.

Take a poll of yourselves. See what and how the country feels about you all and some of your programs.

We have gone to the radio and spoke. The rest of you and C N N really turn a fellow's stomach.

You are losing credibility but don't seem to care. All those who have cable do keep paying your way, but who are we?

Pennsylvania Verrier
