

Mr. Lamb;

8/29/97

Is it your intention to
bore your viewers? In
addition to the mind-
numbing travels and
maunderings of a 22 year
old French twit, that
is apparently going to
go on for years, now
a week of Canadian
drivel. Who selects
the subjects for your
W.J.? Number 1, nothing
any Frenchman says is
of any great importance.
Number 2, if I want to
know anything about
Canada, I'll get a book
& read it - You were
right about one thing,
viewers can turn you off
and many of us are
doing just that
