

TO Whom it may concern.
I will not allow my children
nor will I ever again watch
C-SPAN. You, the employees
at the station must be a
punch of FAGOTS to air
(televise) the Gay Rights
march. I sympathize with
the "straight" people who live
and work in Washington, D.C..
No, I didn't watch I just
noticed while switching channels.
I'm damn tired of hearing
about gays. I make it a
point to "tune" them out on
Radio broadcast. I don't
read (except the issues they want
passed) the newspaper or columns!
Let me make one more
point, if our public schools
ever are forced to carry
GAY reading material or

publications it will be
a cold day in hell (which is
were they are going) before I
ever vote ^{yes} to pass an operating
or levy for our local public
school. Or vote yes for
anything the pertains to public
schools. I'm fed up with
have this shit pushed down
my throat.

I will also be calling
my cable company.
