400 N. Capitol Street #650
Washington, D. C. 20001

Dear Sirs:

Since the Hill/Thomas hearings I have tried to get through to your program to voice my opinion about several subjects.

Thursday, October 31, 1991, I think I got through! I let it ring for ages, then there was a click, but NO ONE came on the line. I held for about five minutes and hate to think that I will be charged for a long distance call without having the satisfaction of giving my views.

I am a disabled widow, 69 years old, living on a fixed income and fighting for my rights. My rights are being taken away by such people as the Reagans, Norths, Kennedys, Keatings, Warners and Bushs, etc.

I feel that GREED is the foremost cause of our problems. Most people will do anything to make money, or should I say "obtain"?

I strongly recommend that EVERY AMERICAN go to the public library (you don't have to buy it) and get Kitty Kelley's book about our last president, Nancy Reagan and her reign in the White House.

I'm outraged at her high handed manipulations and wonder how many of our elected officials and their wives have abused their offices by asking for (demanding) perks, freebees, and the total lack of honesty when spending taxpayers' money on such unneccessary items such as remodelling the White House, new china, free airplane rides, hairdressers, etc.

I'd like to tell you about my husband's treatment while working for the Post Office and how his SKIN CANCER was denied. How he was NOT allowed to work one more month to make it 25 years in stead of 24 years and 11 months because there was NO TEMPORARY job openings.

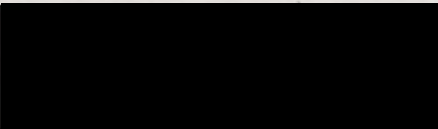

I'd like to tell you how I was forced to retire from the State of Ohio because of unhealthy working conditions, of my problems with Social Security, etc. How I was forced to take straight retirement instead of disability because I was over 60 years old. How the EEOC officer from Columbus was involved and the Ohio Civil Rights Commission reacted to my problems.

I also have a lot to say about Medicare and how it is mis-managed. How you are treated and ignored when you complain about the fees, overcharges, etc. Greed is also one of the problems. We certainly need a better system of policymaking!

I watch your program every day and hope you will read my letter on the air. Perhaps you'll receive other letters such as mine and our government will take notice.

Sincerely yours,

Fairfield, Ohio 45014

P.S. Please do not give my phone number to anyone. Since my husband passed away in February, I've received obscene and harassing calls.
