

April 20, 1984  
Minneapolis, Minnesota

I watch C-Span because !!!

C-Span starts my day off with up to date events from all across our nation.

An articulate call in audience, showing its views with a professional informed guest spurs the audience to think and reach decisions that help us not only at the poles but in all aspects of our lives.

I also watch the coverage of the House of Representatives with mixed emotions. One thing this coverage has done for me, is to make me more aware of our government, and how portions of it work.

I pick up newspapers and magazines that I probably wouldn't have looked at before being introduced to C-Span.

Whenever I turn C-Span on it is a real education for me. C-Span brings events close to home, and for this I thank C-Span.
