Dear Brian,

Jim Wright was interviewed yesterday and was terrific. It's a shame we lost a good Democrat like him and were stuck with Foley. He has forgotten how to serve Democrats and is more anxious to be "in" with George. I like the way you ask a question & let the man answer without interrupting him. Another House member who

should be interviewed in
Traficant - I think from
Ohio.

Your call in shows are always
great. You never show irritation
at some of the statements.

Please keep up your exploring -
I don't know how George Bush
has 91% approval when he isn't
concerned at all about our country.
He certainly doesn't have ours.

Thanks for your programs
