I listen to your program on
occasion and today Mon.
June 2, 1997 was really the
pits. The man from the
spectator ~~was~~ ^{is} some kind
of NUT! And anyone who
reads his smut is also
nuts! If he, or you, or any
one thinks that women only
started being used by men
in the 1960's they are rick!
From time beginning, men have
used women as "things" - women
decided to break loose in the '60's
I guess, but in the case of Paula
I think she knew what to expect if
& when she went up to visit the
Governor. Any woman knows what
to expect if she goes to a man's
room - and she hasn't afraid of
her job either. She "far right" and
Republicans are the ones using her
new! Poor woman. She should be
the one to put a stop to this
crap. Her name
will be mud
