Dear C-Span;

Like everyone else, I lo

statement that He was th

here.

While I do not think

It was interesting to hear how others saw the program and what
they heard. Just like the telephone game!! Selective hearing.
I thought Senator Sanford, Tuesday, the 3rd, did a neat job in
succinctly putting hours of testimony together with a few
questions in relation of what the hearings are about--or supposed
to be about. Obviously Bennett and some of your
callers-especially men- still believe the S.L. debacle is due
to the 5 senators and not Reaganomics which everyone was so
happy to embrace as long as things went their way. Investing
in anything is the same as going to Las Vegas or Atlantic City
and no one should indulge who cannot afford the loss. Sometimes
you win, sometimes you lose. They should stick to \$1.00 lotto
tickets.

I also like the National Press meetings and any educational
meeting. But then C-Span seems to be all educational. If I
could just get my teen-age granddaughter we are raising, to
tune in to you instead of Hunter or soap operas, I would not
worry about her being a couch potato.

I hope the senators are just admonished to watch how narrow
minded people view their actions. But I hope they do not stop
helping people. I just wish it wasn't partisanship after they
get to Washington but for ALL the country. But when you have
the President running around the country at election time in
Airforce one or two or whatever (which my tax dollars will have
to replace) spouting bad words at the other party, since he
is supposed to show leadership, I guess we cannot hope for non-
partisanship at the Congress.

Thank you, thank you, thank you. I am so much better informed
about so much today at age 69 that I can't believe it. The
world is small, isn't it?
Sincerely

P.S. Wouldn't it be nice if stations like C-Span gave all
politicians 5-10 min to run & cut out all contributions!

Dear C-Span;

Like everyone else, I love you very much. While I do not think it is always to the benefit of those being exposed (because we see them in action and do not have to take the written publication's point of view,) it has really taught me a great deal. I like seeing how our government operates even when I don't agree. The character assassinations by "Prosecutor" Bennett in the ethics hearing was so clear. I wish you'd run Patriarca's statement that He was the one who delayed the closing of Lincoln Savings just for Californians, a dozen times since Senator Cranston has been vilified by every Republican owned paper out here.
