C-Span:

Just wanted to write a note of appreciation for C-Span. Several years ago when I watched I couldn't stand it because it seemed all the "House" did was to pound the gavel for quiet. Then for several years I wasn't able to get cable. Now my set is turned to C-Span constantly unless there is something else I want to see. I never seem to turn to the networks anymore.

I am very worried about
the country now. Keep
your integrity C-span!

We need you. the
interviews are conducted
the way they should be.
I've heard many call
in to say "Thank God
for C-span." Dittos!

Sincerely,
