ATTN. Beth Glatt

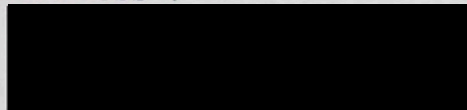

Dear Beth,

Poland steps the way of democratic transformations and constant changes. My friend and me, we are to issue a treatise bothering national radio and TV stations in USA. The results of our work are to be analysed by three main political forces in Poland. We obviously find american solutions the best to work in our country. It is a huge responsibility that makes us seek professional advice and access to a wide range of information from financial sources to editing process.

Could you please supply us with your station available documentation ?
