Hello There at C & Span!

Congratulations on your courage of the
Nat. Republican Convention 92... I wanted to
call in but all your lines were jammed with so
many calls I had to eventually give up - I kept
dialing as soon as you put the tel. number
on the screen but impossible...

I wanted to tell you I felt like most all
the others who called in ^{did} and said they would
vote for George Bush! I wanted to tell you
that I have been an Independent Voter for
years and only changed to the Republican
Party perhaps a year ago - because of my
interest in World Peace Festivals - and a very
special large program which includes an
International Prejudice Program & the
Promotion of World Peace...! And so I had begun
to write to the White House some time ago - and
they have been so precious to me I slowly
began to change my vote! Now I Vote Republican
(also enjoyed seeing Pat Robertson) He was real good! -

and think Pres. & Mrs. Bush are just
wonderful! I was so interested in their
Conventions and how the Pres. talked on World
Peace and I was so glad! Because that's
my goal to find sponsors to fund the
Peace and to start City-wide with the
Festivals... it's such a big program I can't write
too much on all the programs because I
need volunteers especially a typist to get
the material set-up at this time anyway.
I've been glued to the TV on the three days!
I just did not change the dial. I am
so weary of the Democrats and the Mafia
I just did not even change the dial
once! That's how comfortable I felt watching
Spaw! Because you are a new station.
I'm me. But our Media has got so biased
about Pres. Bush I think it's terrible what
they report and Pres. Bush's speech
to night was the best I ever heard.
him express himself - I enjoyed the
entire three days and his talk on faith

2

impressed me so much because I
am a sort of new birth Christian and oh
my it was so wonderful to hear our Pres.
talk on faith in God - this is something
our country needs! Because of all the
immorality and killing of babies, drugs
alcohol and crime! Americans need to
return to God and learn how to live
right especially Pres. Bush mentioned the
return of prayer in our schools! I was
so impressed and to - me it was a joy
to see your courage I just can't thank
you enough slowly I am becoming to
get back to the Republican Party since
my family were Republicans but as the
they passed away I went to the polls
and voted as an Independent! But now
I'm really going to vote Republican
and I wish I could get that on the
all to - night for others who vote as
Independents... however I was so glad

to hear a few Democratic People
say they were changing their Vote!
Along with Mass. ^{vote} who passed; there
Voted for Pres. Bushing was that great!
We have a Democratic State here
that is pro Choice - the Death Penalty
too and how they can make these
choices is beyond me. We have a
Republican Gov. who believes in the
same thing and I hope one day
Pres. Bush will exclude him from
the Republican Party - he also takes
a stand for Gays! Now he can think
that way I don't know because Gays
can creep into our schools and schools
our children that to be gay is o.k -
and here is where America is so
immoral; our children are now
into sex at 12 & 13 yrs. of age - and
there is so much going on in

3

even in Boy Scout Camps where
small boys are being attacked by
gangs - What kind of a generation are we
growing for these young people?

Anyway I want you to know how
much I enjoyed Pres. Bush's
speech! I thought it was wonderful
too how he talked about neighbors helping
their neighbors - Cook wouldn't that
be something! Here where I live no one knows you at all....

I enjoyed too hearing Congressman
Guy Vander Jagt and seeing him on TV
because my first photo of Pres. & Mrs. Bush
was sent to me from the White House
through the Republican Party by
Congressman Guy Vander Jagt - he signed
a beautiful award they sent me too.
With a beautiful color photo of the White
House Portrait (copy) of Pres. & Mrs. Bush
and since that time I have had other

awards + photos the last one sent was
just precious - a limited collectible of the
White House photo of Pres. Bush sitting in a
couch chair talking to this child.
after I read the letter sent from the Chairman
of the Republican Party which I was
invited to join in the Campaign
discovered this precious little child was
Pres. Bush's granddaughter! It's a great
photo - among the others I have. One of
my programs for World Peace is called
"The signature for Peace" and includes
a collection of World Leaders photos who
have signed for World Peace - I had
a few before but now have to get
new copies of new leaders since I
started my program a long time ago.
But I was so happy I saw you
in one of the entire 92 Bush Quayle
Convention I just had to write to
congratulate you on it since I couldn't
reach you by telephone. God Bless

P.S. I also enjoyed Sunday Father's Day on Christian. August 11th 1991
