

Dear Brian Lamb,

If you, personally, have read my letter addressed to you, you know I have had nothing but Praise for you - but I must protest to your Guests on Friday Call in Show on Oct. 30th. I thought your callers were treated very rudely - especially Mark Davis ^{WRDS am} (a typical loud mouthed Republican) who can not shut his mouth - they can't stand to let anybody else have a turn - doesn't your callers pay for their call? if so they are paying to listen to people like Mark Davis - this is the reason I write letters to you cause the cost of a call to your program I can get for free by your callers who never stand a chance of getting a question asked or answered - my 29 cent stamp allows me to write my questions and opinions - you don't answer - but - when you have a know it all - narrow-minded Republican who don't give a Democrat a chance to speak because they don't want the Truth to be heard. Mr. Lamb, please get

back to your Regular Journalist Round Table
Monday and Friday Mornings - You are
usually fair in your Choices of Journalists.
One who Represents the Viewers who like to
hear a Democratic views and one who represents
the Republican view - but when I really
enjoy your show is when you have
Guest Journalists from small weekly
News Papers - like The Nation - Mother Jones
In These Times etc. You seldom do anyone
The Major News Papers that like Washington
D C - I like to hear from those Investigative
Journalists - who don't just take what goes on
in Our Federal Government because we have
to - they bring up - discuss the Corruption
instead of covering it up or allowing it to be
covered up because The Commander in Chief
and all his appointees have the Power to
Shred - Classify or any way they can prevent
the Truth made Public - Its a shame Congress
is too cowardly to demand ~~some~~ access to all
Government Documents and Purush from the top to

At the bottom all Federal Employees of "We The People" Government that have broken Our Constitutional Law. What has happened to Our Congress since "Watergate"? The only reason Richard Nixon Resigned because he knew Congress was going to impeach him - What Nixon did to Our Country was minor compared to what Reagan and Bush has done - starting with "October Surprise" (this has not been solved one way or another) (it won't go away) The Iran Contra Scandal - The S & L Bank Robbery - The B N L Savings Bank Robbery - The Theft of Promis from Indlaw ~~from~~ Our Justice Dept - The cover-up of the mysterious death of a Journalist who was investigating the Indlaw Theft - why was his Body embalmed before his family was notified of his death - why was his Hotel Room Communally Sanitized before the investigation was allowed to start - What about B C C I? All I have seen is

two Departments - Clark Clifford and the Lawyer
This is an International Scandle - led by
People in Our Executive Branch

Mr. Lamb, however this Presidential
Election turns out, will you go back
to inviting Guest Journalists that you
have had on your Show previously that
have investigated all this Corruption and
probably have updated their Investigation
so your viewers can be informed - ^{and}
^{you} just have Journalists from around the
D.C. Area that see no hear no and
don't want to know - I am amazed
how they don't seem to know anything
about these Scandals that all your
viewers have heard or read about them
- are they going to be covered up and buried
as just Rumors? - Please Mr Lamb,
I have been watching C Span and
you for 3 years and I would like
to hear the Truth and put these Scandals
to rest. Sincerely [REDACTED] 64068
