Dear C Span,

2745-90

As the crisis in the middle East continues I would like to extend to you my Appreciation AND respect for your coverage and programs.

As a very concerned American who also once lived in the middle East for four years, I would like to say that it is my perception that most other news or top story coverages on the crisis are one sided AND misleading AND not giving the American people the entire facts or the whole story or a look at ALL parties & events.

I understand the conflicts in the middle East AND I am happy to see that through your programs other Americans will be able to see things clearer too.

I especially would like to know why we are unwilling to see the fact that as the Iraqis point out, we are in a 'double standard' posture by supporting a country for its invasion with 'over' billions of tax dollars and then turn around & spend more to denounce exactly what we've been supporting for 20 years. (OIL!?)

I wish the people in this country could see what's been happening & what will continue to happen if we fail to resolve this in our so called diplomatic fashion.

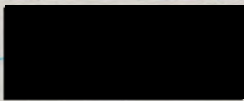

I would like to extend my heart & support to the sincere efforts of Mohamed Al-Mustafar, the Iraqi ambassador to the US, and to you C-Span and I would like to see him on there more and even if possible let him read this letter.

I know my one letter won't change  
or alter what might happen but  
I felt it might help some.

He has alot of cars to capture AND  
A hard job AND As I see if he  
has been willing, more than Bush  
to come to a non military solution.

Please keep programming such as these,  
AND perhaps because of information  
AND joint efforts we would indeed  
be able to solve the problems peace-  
fully if the US would open its  
cars & hearts instead of flex  
its muscles & wallets.

Sincerely concerned  
about the fate of our country & our  
economy,
