Dear Sirs:

I watch C-SPAN because the most informative means of communication is that of personal experience. Its broadcasts allow me to participate in the news as it becomes news!

By viewing events first hand with C-SPAN, every American may feel a part of this great nation. National events are not occurring on behalf of a select few but in the interests of all. "America's Network" should be commended on its diligence and dependability. The expertise of its Staff is exemplified with each moment of coverage displayed on C-SPAN.

Your efforts are indeed commendable. I thank you for combining your resources to educate the under-educated!

Sincerely,
[REDACTED]
