Mr. Lamb,

I am an avid viewer of C. Span and I happened to catch your "speech" to the National Press Club. I enjoyed it very much.

I was prompted to write because your style of speaking and analysis is so to the point and honest I get frustrated because a lot of people do not understand you and your thought process. I am continuously astounded by the folks who have issues with you when, as far as I can see there are none.

When I first began watching C. Span some ten years ago I was awed by the information at the general populace was privy to. And he never looked back.

O. LAMB

During your talk to the National Press Club, you expressed concern that C-span may or may not be around because of the money factor. Which distressed me somewhat because C-span and some of Oprah's shows (my opinion) and some programming on P.B.S. are the best things on the set. As long as you are on the air as rather as long as C-span is on the air you have a viewer and I suspect C-span will endure. Good luck to C-span.

During your talk with the N.P.C. you cited your demographics and I just wanted to, in keeping with the info you shared, share some things about my self your audience.

I'm unemployed and am constantly looking for work. I am a registered "Democrat," and I am a proud "liberal."

It was truly a pleasure seeing your presentation at the N.P.C. and I thank you are a fair minded "cool" guy.

Sincerely yours

My name is [REDACTED]
and this is the third letter I've
written to C-span. The first letter
expressed irritation because I
did not see enough opinions ex-
pressed by "African Americans" of
which I am. The second praising
the various programming and the
inclusion of Mr. Green to the staff.
I am aware of one other "African
American" male but his name
escapes me. This letter is written
only to express my delight at
seeing you in a different light,
your talk with the "National Press
Club."

I am also pleased to know that
there is an 11% tag point of "African-
Americans" in your viewing audience.
I suspect there are a lot more but
the problem is some of us can
not get through to "open phones." I
am forty-three years old and I
hold a B.A. degree from Antioch
University, all this I've shared
before in a second letter to C-span.
