

A-Span Program Suggestion:

Everyone must surely be sick of this ugly partisan politics! Personally, I don't even want to hear all the analysis of why, who, what & when.

Journalists are just as out of touch as the professional people in D.C. The only civilized program of the season was the so-called "debate" where the audience was chosen from "undecided" people who were allowed to ask the questions. The smartest question of the evening was from the young African American (?) when she asked the President how the recession affected him personally. The professional journalists criticized the question as being uninformed or unprofessional! Out of touch!

I am not uneducated or dumb. I am ignorant of many subjects and uninformed about law and legislation because that's the

way D.C. wants it.

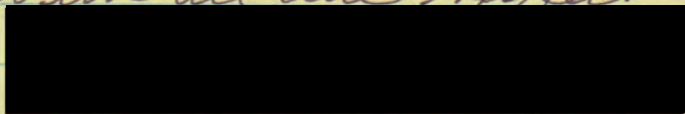

> Please, instead of politicians or journalists, let's get back to some professional people who are knowledgeable on different subjects so that "we" the callers can get back to questions and answers. We've had enough speeches to last 4-years!

We have all so enjoyed C-Span, and learned a lot that otherwise would have passed us by.

> Please, get back to the "question and answer" programs. Try to select open minded, knowledgeable and non partisan people as guests. Please! We pay for the calls. We want answers for the problems that face us - little problems, that if unanswered, soon grow into big problems.

Bryan Lamb is slipping. He no longer has control. Sorry.

With all due respect,

Topic:

Reduce the size of cabinet and Executive Branch of government. More elective offices in the Executive; too big for only 1 elective office. We don't even elect the Vice-President, you just get 2 for 1.

Topic:

Let's talk about government subsidies, loans to other countries, forgiveness of loans and all these promises to "support" by the President.

Support is in the hands of Congress where it should be!

What is meant by
Welfare reform? Discuss

Separate Social Security
End the anxiety for
the elderly. The money

Why can't we separate
the program once & for
all. Let the elderly
rest in peace!

Topic:

Why must we be
THE
super-power
of the World?
