CSPAN

I awoke listening to Gay's vs Military Service again on CSPAN.
I want you all to know how I feel.

In N.J. at a younger age, I met two lovely women who were Lesbians. They worked with the retarded children along with my brothers. However, they were introduced to me as "Queer". (on the QT of course.)

It was through these two women's talents that I was introduced to some of Astrology's concepts. They talked over my head intellectually, so I was intrigued by their knowledge. I found myself with a book in my hand explaining who I was, by a writer whom I would never meet. Yet, I never allowed my mind get passed the word "Queer", in relationship to how I thought of them.

In Juneau, I met a client who has become my best friend. She is a Lesbian. Through her, I realize just how many "straight" and how many "Gay" are in our capital city. She would walk along and say, "Did you notice how she looked at me. I think she liked me." I would look around to see just who she was speaking about. "How do you know?" I would ask. "In fact, how do you know she is gay?"

I met her at a dance...I met her with so and so..So and so told about her...were the network of their knowledge about each other.

Rarely was it because she was testing the situation.

The difference in my relationship with my friend and the other two lady friends of my brothers was because I had given my client respect that grew out of acceptance of people differences by my awareness of their birth.

My friend was opened about who she was and her planetary makeup showed her to be just a client trying to get feedback. I wrote an item about the influence of certain planets within a person's life..which may leads them to more masculine or feminine qualities while in their earthly bodies.

What is lacking here is the word "RESPECT". HOW DOES ONE BRIDGE

THAT GAP? THAT IS UP TO OUR REPRESENTATIVES.

I saw the embarrassment of Kerry, as he tried to defend them as
BEING LIKE MINE WHILE WITH MY BROTHERS.

I saw the ignorance of Strom Thurmond as BEING LIKE MY
BROTHERS. (They were all wonderful brothers)

I saw the natural response and non-embarrassment of Barney Frank AS
BEING THAT OF MY GIRL FRIEND. (I followed his dilemma a few years
ago.)

I saw the security of Barbara Boxer AS BEING THAT OF MY OWN TODAY.

This is a problem of education systems TEACHING PREJUDICES IN OUR
SCHOOLS.

IT HAS BEEN WELL ENTRENCHED IN THE BELIEF SYSTEMS OVER QUITE A FEW
GENERATIONS.

If these people could be secure enough to come out of their
closets, I am sure we would recognize the naturalness of their
lives.

An example of what I think may be working in people's behavior and
attitude is that animalistically, no dog or cat can understand the
make up of a kangaroo. Yet they are all very nice animals. They
are just too different to be comfortable together. What is
happening now is one group of animals are complaining about one
group of animals, refusing to get along. We need a new open minded
educational system on tolerance and compassion from the first
grade on. I think we are above the animalistic behavior of
Territory Protection that is happening now.

I know however upset people are, this era will go down in history
as helpful if it comes out right and very hurtful if it comes out
badly. I will pray for you as you take off the closed doors that
have long ago outgrown their usefulness.

Yours in Jesus's Blessings
