As a C-SPAN addict, I hate to register a complaint but I hope some staff will listen to the ~~of~~ tape of E. Larson, "Summer after Gods" (C-SPAN 2)

The speaker enunciated so badly it spoke so rapidly that if one caught one word in five it was remarkable. (One could clearly understand audience questions!) If possible, check the quality of the sound track before broadcasting it. Clearly it was not a fault of equipment but of lack of speaking skill of Larson
