Dear C-SPAN Staff:

I wish to thank you so much
for your courage of the inauguration.
Your organization has brought democracy
to the people. I feel, because of your efforts,
the American public is more informed and is
taking on a more active roll in what
direction America will be taking in the
future. I only wish your programming
was available to every home in America.

When I learned today your staff is
only 125 people, I had to take the time
and personally thank you - each and everyone of you.

Sincerely,

122 Oaks, Ct
