Dear Mr Lamb,

I'm another fan of yours and C Span.
The general programing is wonderful - I
usually love your panelists - I would
urge you to get contrary views - we need
to see and understand all sides so we
can respond and deal with problems
Too many viewers question as to how
and why certain people are elected
without understanding that there are
many people, in their constituency
who think that way and support
those views. We may not like it but
there are many out there - So let's
hear and understand them.

I also enjoy your book reviews even
tho I haven't seen one lately.
