

This old lady says:

8/27/99

Everytime your guests talk
of what the "People" think, it
raises my ire! D.C. thinks
100 thousand per year is middle
class, when 30 thousand is the average
income in the U. S. Three months
in D.C. + 4 or 5 times the average income
+ they go "Party" instead of People! Outrageous
