Dear C-Span:

Thank you, thank you,
thank you. Finally a T.V.
station I can watch without
going ballistic towards the News
Commentator. I am so sick of
watching sneers, raised eyebrows,
rolling of eyes, etc. by the
Peter Jennings and Don Rogers
of the regular networks, when
all I really want is to be
informed. What upsets me the
most is when half-truths &
half-lies are reported instead of
complete stories - especially on
the political scene.

I have two suggestions - the
most important being an 800
telephone number. I would
love to call in - but it would
be impossible for me to call

from California - especially
when I'm sure I would have
to be put on "hold" for a
while.

The other suggestion is to
have an "in between shows
segment" showing some of the
letters received from your
viewers, similar to what
CNN did during the Gulf War.

Speaking of CNN. In the
beginning I loved CNN (1988)
but slowly and surely they have
introduced management's views
into regular news or they have
out-numbered on panels the
Conservatives. I don't expect
everyone to agree with my views
or want everyone to agree. What
I WANT is fairness in news
reporting. Thank you Again.
