Dear Mr. Lamb:

A call came in on your March 5th program regarding Vice-President Gore's statement on the Larry King Show, March 4th.

This is what I heard the Vice-President say on the show:

A lady called in saying President Clinton had said he would add a percentage tax only on millionaires.

This lady said her husband made \$250,000.00 a year and now he was going to be taxed.

Vice-President Gore said people who made \$250,000.00 for several years would be millionaires, therefore it was only fair for them to be taxed.

This sounds ridiculous!

Please advise if you have had any other interpretation of this statement by the Vice-President. Thanks.

Yours truly,
