Dear Mr. Lamb:

SEP 24 AM 5'D

Thank you for the
interesting interview
in Dallas.

Texas is a strange country.
It is the real Alamo-
San Antonio born with
guts Texans who will
revive Texas.

Texas like California has
been invaded by
millions of users and
takers and asset
taggers who do not

2
give a lesson about
any area in which
they live.

C. Gane's gentility is
a characteristic of
all the staff. Listening
with respect and sincerity
to guests - politicians,
authors, professors etc.

Successful people have
one experience in
common to succeed -
..... those days
months and years
of 'grey fatigue' -
the walking talking
near robots.

WW II's Bill of
Rights group and
Gale reports
on this subject.

Youth must be served?

Our Country - families -
everyone has served
them too much.

Would you discuss a
couple social psychologists
and retired prison
wardens - and directors
of juvenile hall of the
fact?

Juvenile hall are criminal
hall today.

Why so many women in prison?
How to stop this?

Thank you for book review, too.

Ben Bradlee terrific.

Most respectfully,

Mrs. [REDACTED]
