Dear Mr. Lamb and C-Span hosts,

Is C-Span fair or unfair? Somehow the steerers of the various opinion ~~programs and call-in~~ shows always manage to avoid this subject and Lamb invariably gets hot under the collar whenever a call containing this criticism manages to slip past the guardians of propaganda, manning the switchboards. Because that is what TV propaganda is all about, isn't it? The last thing a media propaganda expert can afford is to have his own platform for propagandizing ~~be~~ undermined and discredited! That would really prove him ineffective and impotent at his life's career work and surely get his name put on the early retirement list. Therefore, by necessity he must absolutely make certain that all critical call-ins be screened by his specially trained culling or triage squad. It is sad to see <sup>THAT</sup> such a potentially decent idea as c-span could have been turned to low and devious ends.

As for the latest c-spin for the month we are beginning to see how all of this media warfare and the onslaught of BIG BUSINESS' political slash and burn tactics have already affected the political balance. For years our media partisans, ~~the~~ those irregular guerilla forces of wealth and privilege, have assisted the lobbyists for the rich while they whined and wailed and moaned about gerrymandering in certain states that THEY have targeted to bitch about.

Yet what we see in reality is that even before all the primaries are completed, two of the best, most respected and brightest of the democrats have already been gerrymandered out of their districts! Naturally this was not gerrymandering done by the democrats, which certainly puts the lie to all those years of prevarication by recalcitrant ~~g~~ regressive right wing propagandists who are always ~~f~~ given more than their say on ~~th~~ the regimented rightwing TV MEDIA. C-span like most of the TV Fiefdoms controlled by the same ~~o~~ tired old filthy rich men in power, caters to this anti-democratic group by formalizing all issues in terms of what the representatives of REACTION want to be heard everyweek. This narrow spectrum of debate (or non-debate) is controlled by the same people, of the same slant ~~an~~ and biases, who love to call themselves conservatives, which of course has always been a vague and confusing term or (really) euphemism. But their aims are well served by this hazy presentation of the politics of confusion.

Marty Russo from Chicago and Howard, <sup>WOLPE</sup> of Michigan have already gone down ~~r~~ to defeat and the battle has barely ~~g~~ begun. We can see Lamb, the swamp gorilla of reaction working his tote board and making another notch in his pentagon camera as he ~~a~~ smacks his lips ~~AT~~ these delicious victories over his deadly foes. Therefore he runs the Wolpe concession/farewell interview as he savors his triumph, but these singular conquests only whet the bloodlust of killers like Lamb. He and his commando squad will go allout now to continue their bloodletting and destabilization of the congress (those same old CIA/gestapo nazi invasion tactics).. Observe that whenever the democrats

are at their worst crisis point, which c-span has usually been instrumental in causing and which it always jumps upon to help aggravate, that old media doberman Lamb exerts the most pressure, such that on the morning Wolpe announces the abandonment of his race, the Lamb squad runs not two, but THREE call-in propaganda charades. This is exactly the opposite of what we see whenever there is a potential issue that might criticize, embarrass or expose those political favorites of his. All of that kind of balance and fairness is quietly dispensed <sup>with</sup> as he runs his media cover operation for the party of the nazis CIA. Whenever the party of reaction feels pressure due to their various unprecedented colossal embezzlements, misappropriations and massive swindles, the Lamb media soft peddles it to sleep and slowly, oh so beautifully and covertly kills all those bad image stories by collaborating with his party of choice in their daily creation of newly fabricated tricks and ruses and feints and strategems to keep control of the TV media prevarication business and to monopolize all the air time by working in concert with the privately owned TV media. Together they are constantly busy dreaming up every kind of propaganda assault on any congressman foolish enough to try to represent his TRUST; that of serving the real majority of his people instead of only the chamber of commerce rich old boy network of corrupters and their various business (personal private) "interests" - THE BIGGER the BETTER - to suit the reactionary Lords and therefore the deathly enemies of the American working people

As soon as this fascist alliance of the business aristocrat rich and their pandering media achieve all the damage they can cause, off they go to the next bloody campaign, with never a letup!

It is only too obvious what the major issue should be in 1992. It should have been the big issue in 1988 but the bordello TV media managed to kill the story just as efficiently four years ago. Those who read political news at least minimally realize that all this HOUSE banking flack and hype is another detour, another successful attempt to distract attention away from the real HOLDUP, that of one HALF a TRILLION \$\$\$, EMBEZZLED, STOLEN and made off with by rich CONSERVATIVE "PRIVATIZERS" as opposed to absolutely ZERO TAX Funds or any DOLLARS \$\$\$ which were neither stolen nor embezzled in that made-for-c-spin phony staged, House banking DIVERSION! This simply goes to show what kind of smokescreen and smoke and mirrors distractions the corporate fascists can successfully stage when they are allowed to take complete control of the American Television spectrum, which should be absolutely illegal since by this criminal monopoly they can preclude any valid open political debate or free and democratic discourse!

This charade was created to veil and conceal the story of the century, ever so quietly and clandestinely - away from the eyes, ears and attention of the people. The still untold story of a horribly immense and UNPARALLELLED looting of the American banking system/They will enshroud the pertinent issue in a poisonous cloud of fabricated battlefield smoke and confusing haziness to obscure the true proportions of the political battle, so that the outnumbered electoral big guns of the same old rich thieves of privilege can win the field once more!

This is a classic example of the repeated attempts of

those controllers of the TV political machine to make such a confusing bewildering swirling muddying of the political water that simple americans will give up in disgust and abandon the election battle in rage and confusion. The object is always to jade the voter and discourage him. They want us to feel that we can never affect the outcome and so walk away from the whole mess. This is why - for over a century the american industrialists, speculators, monopolists and lords and controllers of all means of wealth and production have never allowed U.S. voters the simple expedient and convenience of voting on a Sunday. In every single civilized European nation the vote is taken on sundays but not here. Why, because big business has always opposed it and during those few years when the CIO was pulling the NEW DEAL kicking and screaming into the 20th century they just never got around to that little peccadillo.. Sunday voting would make it that much more convenient for joe slob to vote and this is exactly what our so-called "conservatives" do NOT want!

The television dodge, diversion and distraction is exactly the same tactic that the reactionary party or of the rich and their fascist controlled TV machine worked on the people in 1988. All during the months of july and august, as soon as JESSE was safely out of the way, the TV- MACHINE spin was all about BUSH & DUKE being really worthless, no good disappointing candidates and how it was such a disgusting election year with no decent candidates to choose from! But as soon as Labor Day was past and the Ayles/Atwater propaganda bulldozer got rolling, the media did their usual double flip and went into gear to assist and grease the old skids for the fascist personality attacks and wild charges on the top democrat. Upon his person, his honor and character. After that we never heard any more about how lousy they ALL were. It was time (and the TV fascist whipping boys know all about that expert timing) for the TV juggernaut to move fast and anoint Bush in those last eight weeks!

The original BILL which let the S&L fat cat privatization experts have their fling was the GARN-St. GERMAINE bill. Wright, Coelho and Cranston are gone or as good as gone but old Jake Garn still totters about, ensconced within his safe C-Spun media cocoon. Another beautiful example of fascist government by TV machine and a perfect exercise in TV "balance" and TV "justice". People who serve on this media machine of power and injustice are there to silence all detractors. In america you simply do NOT criticize the really rich and powerful - OR - their manipulators on the TV propagandizing machine. If you do, your voice disappears forever from view on this tightly controlled medium.

Yes, we have progressed from those bad old days of Tammany Hall and Boss Tweed city machine-politics when at least the poor people got coal and bread and assistance with their landlords and a free beer on election day. We have supposedly progressed to the electronic advances of modern day TV machine politics where the common man gets NOTHING (but lies) except the opportunity of being cut out of the whole process because he doesn't possess his own TV station to fight back with.

The Bosses of PRIVATIZATION (which really means slavery for the little guy) are the creators of PRIVATION for all of us. They are the pirates and privateers of the world who

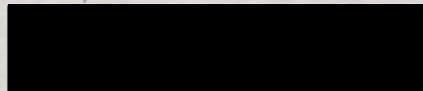

hope they have turned americans into a mass of brain dead  
tapeheads and zombies who will f drone away their lives and  
settle for a call-in every month to fascist criminals who  
have stolen free speech and turned it to their own will and  
power and advantage! The ultimate weapon of psychological  
warfare, which was relegated to the print spectrum of books,  
newspapers and magazines prior to world war two is now applied  
through the latest techniques of polished prevarication, gone  
computerized. Everything c-span does or attempts to do to us  
or with us is an assault upon our thoughts, our lives and  
our very essence and existence as human beings.

The damage they do is cleverly set upon and deliberately  
calculated to help these people who appointed them to their  
high positions to eat away at what remains of the walls of  
DEMOCRACY, to erode all decent thought or inclination or  
free u intent - like a cancer.

You are basically a TOXIN injected into the body politic  
to destroy the substance of freedom and turn anyfree men who m  
may still be out there and can still think straight into

disgusted dropouts, confused wavering helots  
or call-in clones!
