RE: U.S. SENATE; 102nd CONGRESS, 1st Session.

Gentlemen;

Your TV Programing of both the House and Senate is commendable; other subjects are equally valuable.

Many times I must choose to defer or omit outside activities to be within range of a TV sets audio to hear the conclusion of debates. Can radio transmission of your programing in Northern Illinois (Chicago) area, or any part of the country, be possable?

Our local cable company <sup>X</sup> is planning to terminate C-SPAN2 early in the P.M. each weekday to show another canned program. I'm informed this will be effective DECEMBER 1st. The person in charge of programing said CSPAN-2 people informed her that live program ended prior to 7 PM. Now I know that the most important live activity on the U.S. SENATE FLOOR can take place in the evening or later. Please clear up this conflict. Is CSPAN 2 terminateing live signals after 7 PM as of DECEMBER 1st, 1991 ?

If so please inform me. IF NOT please contact JONES CABLE and insist that all live SENATE SESSIONS be aired live uninterrupted in the ORLAND PARK, ILLNOIS area.
