

In one or another way, democrats, reporters and some others just you have in your show, they mention always the so called victory of the Vicepresident Al Gore in the debate with Mr. Perot. There was no victory

Mr Perot was set up by Larry King to have a debate with the President.

To select the place for the debate, the Vicepresident did not accept to go public, he said he will be executed; and like always they depended on Larry King, he was caught by him.

In my observation, they gave the victory to the Vice President because Wall Mart. provided jobs for the Mexicans; or because Mr. Al Gore was cool and calm.

Will you please, Bryn, next time that one of your guest ~~mention~~ because of the victory of the Vice President Al Gore, NAFTA was signed. Could you ask he or she, to explain the so call victory of Mr. Al Gore?
