Dear Mr. Lamb,

I would like for you to stop! Think! about what I am about to ask you - Why does all the media that speaks Publicly for TV or Radio or write Political columns and all the Republicans and even most Democrats - Put the Democratic Candidates running for President down before he utters his first Campaign Speech - Everybody Pokes fun at the Democratic Party laughing away from declaring themselves as a Candidate - In fact Paul Tsarngus declared himself a Candidate some time ago - but all you hear is no body from the Democratic Party is running against (Mr. Popular) George Bush - Where does that leave Mr. Tsarngus? And every Democrat that travels around the Country making Speeches on what they would do if they became President - and they are attacked as the same old Tax and Spent Liberal - They can't talk about an Issue without the whole Country giving their opinions on the Issues all Democratic Candidates talk about - they are talking about Issues pertaining to the Poor - 1. Homeless 2. Health Care 3. Pro Choice for Abortion 4 Civil Rights are for Women who have to work because she is the Head of the House and only her job feeds her family and pays the rent - and the Black Male who is a laborer with no education - All these Issues cost money and Taxes are raised by the Democrats to pay for these Issues and who is the Biggest Tax Payer? Not the Rich - but they are the ones mouthing off - and the

middle income worker who is the Biggest
Tax Payer I just want the Poor riding their
backs to pay to house or feed or pay for
their Health Care and the Rich take advantage
of the middle income worker, going against funding
the Domestic Programs for the Poor and separates
the middle income worker from the Democratic
Party. But if the middle income worker would
ask themselves what has the Republican Party
ever done to raise their standard of living? In
fact most of the middle income workers were
making \$0 to \$20 an hour at a factory job
that had a Labor Union that got their wages
raised and got the Benefits they enjoyed before
Ronald Reagan took his movie shot to the
White House - The first thing he did was fire
Labor Unions - closed factories and let Japan
set up non union factories - or promoted
Businesses to move to a foreign country that
had cheap labor. The poorer the middle income
workers realize the Republican Party is. The
Big Business Party - Pro Business - against
Labor - keep it minimum wage - so that
all citizens are either Rich or Poor.

What I am trying to tell you my friend -
No body wants a Democratic Candidate to
run against George Bush - cause the voters
might start listening to the Candidates who
speak out on the AWOH Domestic Policy
President George Bush. There is a little fear
behind all this Bashing - The only thing I don't
understand what is it for the Democrats to
be bashing fellow Democrats - Can you

have a Journalist Round Table - choosing
half who can't say anything good about any
Democratic Candidate or even one who is
speaking on Domestic Neglect since Ronald
Reagan and another half who can see the
Homeless (far greater in America than any other
Country) the sick or injured without Health
Insurance that Hospitals won't accept - the
more and more Middle Class women making
less wages than in the 1970's - The decaying
Bridges - Highways - Airports - The Trust Funds
that are spent as regular revenue to pay for
anything the Executive Branch want - Ask each
Journalist these questions - and then let the
Call ins have their turn - This is a duty
I span over the Democrats a chance to
defend their Policy - No We The Voters elect
Our President to take care of Our Country and
Our People? - or do we elect a Global President
who houses - feeds and defends Foreign Countries
and their People - but with American Dollars -
It isn't that Our Democratic President has
spent too many American Tax Dollars on America
and Americans - It is the Republicans spending
too many American Tax Dollars on Foreign
Countries - in Defense of them and their Oil
and looting and when they don't pay back -
forgive their loans - If all these questions were
brought out by your Journalists and the
Tax Payers who call in - see Once and for all
how the Tax Payers want their taxes spent -
for America and American People - or Foreign Countries
and their People - I love you shows
Sincerely [redacted] Liberty 64068
