MEMO TO C-SPAN

00594 JUN 1 1993

Dear Reader,

On three occasions when gay rights were advocated on C-Span, transmission was interrupted in the middle of the proceeding.

I receive my cable from Falcon Cable.

I would like to know whether this blockage of transmission (with a static display and music from "The Sports Channel") was at the discretion of C-SPAN or of Falcon Cable.

So that you may consult your logs, the last time this occurred was today, May 28, 1993, at approximately 5:35 p.m. On Falcon's channel numbered 34, "the Sports Channel" began to broadcast at 6:00 p.m., on the channel on which Falcon carries C-SPAN. The static display began at 5:35.

Any information would be appreciated. SINCERELY,

cc: Angie
