

Sept 21-93
Border.
San Ysidro, Calif

Near C Span 2. Cr.
Mr. Gibbons:

I am writing from the Mexican border of Tijuana Mexico, I live in San Ysidro. the other side I am an American born in Colorado, only reason I live here is because I have two sons in the army, but Mr. Gibbons it is unbearable,

ardon me, but I will tell you about our Governments Pacific fleet based in San Diego - National City, is floating in Tijuana Mex sewage, - and it stinks. - waters are gearmy Bacteria - flies, our beaches are closed most of the time - if we swim we could get sick of Hepatitis - I feel so sorry for the people from San Diego, like you and me, who have traditions of long ago, horse and buggy days,

Mr. Gibbons I'll tell you now about Calif. it is now 80% Mexican and Mexicans are coming in by the hords, everyday Wet Backs illegal aliens. This Wet Backs are helped by other Mexicans that are already here, and have made it, but at one time were in there same shoes.

They really dont like Americans, because Border patrol are Americans, and they catch them, if they can, and put hand cuffs on them, and in gaddy wagons. I see this every day, as our Condo. is just about 1 mile from the Border Crossing; it is hard for us Americans that live at the border.

Mr. Gibbons. Mexicans are coming in by the hords, through Tijuana Mexico. on to San Diego. Los angles. and sweeping on down through

the Country - this is ^{Why} what a lot of people are so afraid of, a take over of America, our Country. this mexicans are very powerful in Calif.

there mexican Channal Eco. and another Channal that I get here at the border. Brag. Law Big they are also getting in Midamye and Chicago.

I understand espanol can see all that is happening in mexican TV Eco, through Mexico. El Salvador. - all the way down to the tip of South America.

Mr Gubbons. it was frightening when the drug. Trafter Gusman. from Guadalupe was building a drug tunnel from tipuana. To Otah mesa. border Crossing not far from here when I.

live - the tunnel was just about to come out in a Cannary Warehouse, we suspect they were going to can the narcotics and ship them through out the U.S. it was named Narco tunnel for narcotics - I thank God that it was found - and I cried for my country.

Mr. Gubler the people that are against the North American trade agreement with Mexico are afraid for America.

History tells me, that in 1957-1958. Fidel Castro went to Mexico, and Mexico trained him for a revolution - after he got out of Mexico, he went back to Cuba - then on to the Soviet Union, and declared himself a Communist.

-5-

In Tijuana, I've seen the word Comunista written on walls, meaning Communist, and I've wondered, what is this all about.

Mr. Liggins. C. Span 2.

I'm against the North American trade agreement. because I'm afraid for my Beloved Country.

Sincerely,
