To whom it may concern:

I am sending you the enclosed documentation, which I authored because it pertains to C-Span. I have enjoyed your presidential series immensely, as well as your early morning news shows.

The entire staff in front of the cameras is so professional and a welcome relief to those of us who are sick and tired of celebrity newscasters.

Thank you for C-Span.

Sincerely,

The Second American Revolution

There is a war going on in this country. It is a war being fought to win the hearts and minds of our countrymen without a single bullet being shot or bomb being dropped. This war is insidious. It is being very carefully choreographed and scripted so as to blow our peoples' minds. Instead of military Generals and Admirals directing the effort we have the producers and directors of television leading the effort. Without a shot being fired or a bomb being dropped we may find our country doomed to lose this battle because our populace is not educated enough to understand the very basis on which this country was founded. By the abuse of the First Amendment to the very Constitution that has made this country what it is today, we are seeing and hearing history that is nothing more than a fairy tale or myth played out on nightly news.

The major networks, NBC, (MSNBC), ABC, CBS, and the Clinton News Network (CNN) with their celebrity anchors are leading the charge to toy with the American psyche. Their strategy is to create a myth.... not the American dream. While our forefathers fought a revolution to give us liberty, these modern "Loyalists" fight to shackle us with propaganda to imprison our souls. They have sold out to the enemy. They want you to sell out too.

How do you know this is true? Think about the surge of patriotism and how your heart swells with pride when you hear the words, "We hold these Truths to be self-evident, that all Men are created equal". Then, recall the churning stomach and the nausea you have felt this past week, as you have watched the drama and the excessive rhetoric playing 24 hours a day on your television. Who is winning this battle? Are our children and most of our adult population educated enough to see through this propaganda. Have they bought into the myth of Camelot?

Only C-Span lets the truth unfold. Thank God for C-Span. On this channel you can see with your own eyes the unedited version of what is going on in America. You can see people like John McCain and Elizabeth Dole walking the streets of small towns in New Hampshire and shaking hands with people just like yourself. You can hear the words they exchange without the sound bites of a Dan Rather, Tom Brokaw, Peter Jennings, Cokie Roberts or Diane Sawyer interpreting and telling you what to think and feel "at a time like this". You are not victims of celebrities interviewing celebrities.

My ancestors personally fought in the American Revolution so that all of us could enjoy certain unalienable rights endowed by our Creator. It is up to me to continue this fight because the battle is obviously never won. Would you give up your rights to have a King or Czar decide for the American people whether we should drop bombs on people in other countries or spend your hard earned money on the recovery of celebrities created by the news media? Well, that is what you are seeing unfold before your very eyes as we speak.

The Kennedy family is not any different from the Thompson family or the Keays family or the Weaver family except that they have a press to proclaim they are different.... that

somehow they are royal in a country that has no royalty. Then there is our President who abuses his power in a way that no other President has or could. He has decided for the American people the right way to use our tax dollars. He has decided when to go to war without Congress declaring a war. He has decided to use our military people and ships to recover the bodies of a family because of their celebrity. He would not do the same for yours.

We might as well go back to feudalism if this continues. We are over taxed, under represented and propagandized to on a daily basis. The book titled Animal Farm by George Orwell written in 1946 to expose Communism really says much more about what is going on in our country today. We have seen our Constitution misinterpreted by our Congress during the impeachment process. We have been told the words don't mean what we were taught in school, but rather need to be interpreted with more insight.

I implore you to think about what you are hearing and seeing. Trust your instincts. If your heart is not swelling in pride, but instead you are feeling sick to your stomach, you can rest assured that you have won the fight. You are not a victim of this war, but rather a survivor to fight another day. It is in your children's and your grandchildren's interest to explain what is going on to them and to turn off the television. Our very future depends on it.
